## *In Celebration of Roy's Life*

Please don't grieve for me as I had a very happy life with many people throughout who loved me dearly. I want everyone to celebrate my life and I'd like the memory of me to be a happy one. I would like for everyone to be a little richer for having known me. If I could leave a message, it would be to treat everyone with respect regardless of who we are and our status in this life. My final wish would be to be remembered as the little guy with the great big heart!!!

*Until we meet again my friends.*
